

ADDVERB

ENERGY MANAGEMENT SYSTEM POLICY

Pledge

We commit ourselves to environmental, social, and economic sustainability of our operations. We achieve this by:

- Define energy performance objectives and indicators with necessary resources and review the progress against those
- Identifying opportunities for significant reduction in energy consumption
- Executing energy saving improvement projects
- Continually monitor & improve energy performance in our design, procurement, and manufacturing processes
- Establish a supply chain that is energy conscious and provides energy efficient products and services
- Ensure compliance to legal and other requirements related to energy.
- Actively communicate and involve all internal & external stakeholders in our journey towards efficient energy usage
